

Basic Service Charge Rate Increase Notice

What is the Basic Service Charge found on my water bill?

The Clifton Park Water Authority charges a quarterly basic service charge to all customers. This charge is separate from usage charges and is a fixed charge based on meter size. The charge covers costs that are the same or similar for all customers, including the cost of meter replacement, the cost of customer billing, annual meter software maintenance services and repayment of debt on infrastructure.

Beginning February 1st, 2025, the Quarterly Basic Service Charge will increase for all customers proportionally based on the size of the meter servicing the structure. Meter sizes and charges are shown in the chart below.

Effective February 1, 2025 the Basic Service charge will be increased to the 2025 BSC amount.

Quarterly Basic Service Charge (all users)

Meter Size	2024 BSC	2025 BSC
5/8 and 3/4	\$17.25	\$19.32
1	\$34.28	\$38.39
1.5	\$61.96	\$69.40
2	\$96.80	\$108.42
3	\$202.68	\$227.00
4	\$306.42	\$343.19
6	\$624.09	\$698.98
